# World Class Design *and Performance*

Never Summer manufactures premium, handcrafted longboards built from start to finish in our Denver, Colorado factory. We use the same exclusive composite materials and construction methods that have given our snowboards their undisputed reputation, and each NS longboard is made with that same level of quality and attention to detail. Through the use of our exclusive fiberglass, rubber damping, P-tex tip and tail bumpers, and excellence in design and engineering, Never Summer builds only the finest longboards.

## Materials

**STS/SK8** – We use our exclusive STS/SK8 fiberglass in all of our skateboards. This pre-hardened, pre-tensioned, layered laminate is the world's best fiberglass and only Never Summer has it. It retains the flex pattern and snap of your longboard to increase life and response.

**Flight Core/SK8** – Utilizing our in-house wood working facility we manufacture a vertically laminated aspen core for our longer models. Borrowing from our proven core technology used in snowboards we have adapted our flight core characteristics to make a solid and responsive platform for our longboards.

**Bi-Lite/SK8** – The Bi-Lite/SK8 is a very snappy and light fiberglass that adds strength and response in our longboards.

**Hard Rock Maple** – These hard maple laminates are engineered for Never Summer to our exact specifications including quality, thickness and moisture content.

**Rubber Damping** is utilized in all of our longboards to absorb vibrations and improve stability. This elastomeric foil provides a smooth and stable ride and reduces high speed wobbles.

# Assault ASSAULT

3  
YEAR  
WARRANTY

This is the most fun board we have built to date. Ideal for around town or campus. We added extra fiberglass in the kick-tail to keep it functional while maintaining a softer flex in the platform of the board for a nice ride. Using 150mm trucks and our 72mm/78a wheels gives you plenty of grip and forgiveness riding over cracks and rocks but the Assault is also extremely agile. Truly the best of both worlds!

# Descent

## DESCENT

3 YEAR  
WARRANTY

Using our hugely popular Norad as its foundation, the Descent is our 39" twin tip, flex deck. Loaded with camber, Bi-lite Sk8 fiberglass and a horizontally laminated core, this deck is the ultimate in both performance and fun! The Descent comes complete with black on black Paris 180mm trucks and NS 72mm/78a wheels.

# Heist HEIST

Similar in construction to the Descent, the Heist is a 41" drop-thru flex deck that is preloaded with tons of camber and a little more concave than other flex decks. Very lively and responsive yet not overpowering, this is the elite in flex decks. Includes black on black Paris 180mm trucks and NS Inferno 77mm/77a wheels.

# Swift SWIFT

The Swift is a cambered, concave carving board with a solid flex pattern, for increased energy out of turns. Derived from our freeride snowboards, The Swift is a great cross over model featuring a smooth consistent flex and responsive shape with a kick tail. The Swift comes complete with black on black Paris 180mm trucks and NS 72mm/78a wheels.

# Soldier Soldier

Easy to distinguish from the rest of the fleet, this downhill demon is created for velvet smooth handling at breakneck speeds. Featuring a rockered/spoon drop-thru design for a lower center of gravity, hickory hard wood spine, full carbon fiber laminates and our stiffest STS/SK8 fiberglass, the Soldier will go as fast as you are willing to take it! The Soldier comes with custom Randal 180mm trucks, using RII 180mm hangers on a 42 degree D.H. base plate and downhill barrel bushings. Our NS 77mm/77a Inferno wheels offer great grip and speed.

# Tyrant

## TYRANT

3  
YEAR  
WARRANTY

The Tyrant features a unique rocker design. This design lowers your center of gravity to improve stability, increase foot hold and allow for easier pushing. Great to cruise around town but if you want to bomb a hill, it has more than enough to handle it. Low, stable and fast! We use Paris 180mm trucks and our 77mm/77a Inferno wheel for added performance.

### Specs

42"x10" wheel base: 32.5"

# Riot RIOT

The Riot uses many of the same quality materials in our other longboards, and is an excellent all around cruiser for anyone getting into longboarding. Reasonably priced without sacrificing in quality or performance, the Riot comes complete with raw on raw Paris 180mm trucks and NS 64mm/81a wheels.

## Specs

38"x9" wheel base: 26.75"

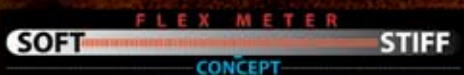

# Concept CONCEPT

**3**  
YEAR  
WARRANTY

The 43" Concept is a high-performance modern pintail that incorporates our advanced technologies along with a more up front design shape. Redesigned with wheel wells this cruiser can get you around town as easily as it will handle high speed switch-backs or late night parking garage runs. Includes black on black Paris 180mm trucks and NS 72mm/78a wheels.

## Specs

43"x9.5" wheel base: 34"-35"

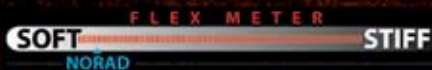

# Norad NORAD

A cambered, concave carving board with a soft but solid flex pattern and long wheel base, the Norad flex deck delivers! Constructed of the finest materials, this ride is responsive and tight turning. The Norad comes complete with black on black Paris 150mm trucks and NS 64mm/81a wheels.
